Senior Proposals Specialist with 10+ years spanning proposal management, commercial operations, project management, and engineering. Expert in past performance narratives, adverse performance analysis, and compliance for large-scale government proposals. APMP Foundations Certified.

EXPERIENCE

Senior Proposals Specialist

2022–Present

KBR, Inc. — Moorpark, CA

- Lead past performance and adverse performance narrative development for government proposals, supporting 10+ opportunities representing over \$2.9B in aggregate contract value
- Directed adverse past performance collection and analysis across multiple predecessor contracts spanning CONUS and OCONUS sites — synthesized letters of concern, corrective action reports, Cure Notices, and CPARs into compliant recovery narratives
- Serve as Past Performance Lead on major contested re-competes; coordinate data calls across geographically distributed program teams under compressed page-count constraints
- Contribute to capture-phase support: RFI development, contract strengths analysis, glide-path solutioning, and milestone reviews (Pink/Red Team) for pursuits including a \$600M+ commercial services opportunity
- Maintain cross-functional compliance trackers for multi-volume submissions and serve as independent reviewer for corporate experience sections

Sales & Operations Manager

2018–2022

B&K Vibro — Houston, TX

- Managed western US sales region covering 17 states; served as Salesforce Administrator for a global team of 40+ across every continent
- Led CRM migration from legacy system to Salesforce in 6 months — scoped requirements, managed data migration, and trained 75+ sales managers globally
- Project managed a \$4M multi-country proposal spanning multiple business units and geographies
- Developed and delivered sales forecasting training for 75+ end users; drove FY2022 business planning with a \$7M forecast

Proposal Specialist / Project Manager

2016–2018

KBR, Inc. — Houston, TX

- Managed complex proposals across multiple KBR business functions; designed Gantt-chart operations schedules for \$1M–\$10M military projects
- Analyzed asset management data leading to global program optimizations and cost reductions

Mechanical Engineer / Project Manager

2013–2016

KBR, Inc. — Houston, TX

- Led technical bid analysis, equipment commissioning, and root-cause failure analysis on capital projects
- Project managed an \$850M plant expansion; managed a team of 10 millwrights and electricians

Sales Engineer / IT Support / CAD-CAM Programmer

2005–2012

B&K Vibro, KBR, Texas A&M, and others — Texas

- Sales Engineer for Texas/Louisiana territory at B&K Vibro; delivered vibration analysis training to 100+ clients
- CAD/CAM programming and 3D modeling integration; IT help desk at Texas A&M University
