PROFESSIONAL SUMMARY

Senior Proposals Specialist with 10+ years across proposal management, commercial operations, engineering, and project management. Led past performance and adverse performance narratives on 10+ government pursuits representing \$2.9B+ in aggregate contract value. Proven ability to synthesize complex compliance requirements into winning proposals under compressed deadlines.

PROFESSIONAL EXPERIENCE

KBR, Inc. — Moorpark, CA

Senior Proposals Specialist | Mar 2022 – Present

- Led past performance and adverse performance narrative development for 10+ government proposals representing \$2.9B+ in aggregate contract value — managed compliance reviews, color-team support, and capture-phase contributions
- Directed adverse past performance collection, analysis, and narrative development across multiple predecessor contracts spanning CONUS and OCONUS sites — synthesized letters of concern, corrective action reports, Cure Notices, and CPARs into compliant, evaluator-safe recovery narratives under compressed page-count constraints
- Served as Past Performance Lead on major contested re-competes, coordinating data calls across geographically distributed program teams and navigating complex multi-volume compliance requirements
- Contributed to RFI development, contract strengths analysis, and glide-path solutioning for early-phase captures, including a \$600M+ commercial services pursuit
- Maintained cross-functional compliance trackers for multi-volume submissions; served as independent reviewer (IPR) for corporate experience sections across color-team milestone reviews

Brüel & Kjær Vibro (B&K Vibro) — Houston, TX

Sales & Operations Manager | Aug 2018 – Feb 2022

- Managed western US sales region across 17 states; served as Salesforce Administrator for a global team of 40+ across every continent — generated sales forecasting dashboards and reports for executive leadership
- Project managed CRM migration from legacy system to Salesforce in 6 months — scoped requirements, managed data migration, and developed/delivered training to 75+ sales managers globally
- Led a \$4M multi-country proposal involving resources from Denmark, Germany, and Brazil, coordinating across C-suite stakeholders at B&K Vibro
- Developed FY2022 business planning resources for the Americas sales team with a \$7M forecast; discovered and developed opportunities with \$1M+ revenue potential
- Managed all proposal development across the Americas with signature authority for budgetary proposals up to \$500k

KBR, Inc. — Houston, TX

Proposal Specialist / Project Manager | Jul 2016 – Jul 2018

- Managed complex proposal development across multiple KBR business functions — supported sales, capture, and business development through technical solutioning, win theme development, and management review coordination
- Designed Gantt-chart operations schedules for mobilizing and executing military-focused projects worldwide ranging from \$1M to \$10M
- Researched and applied DoD, Army, Navy, and Air Force SOPs and quality standards to ensure compliance in 10+ individual submissions
- Analyzed asset management and supply chain data, resulting in prioritized improvements that optimized KBR's global program

KBR, Inc. — Houston, TX

Mechanical Engineer / Project Manager | Mar 2013 – Jul 2016

- Led technical bid analysis, incorporating corporate and industry standards while facilitating bid conditioning meetings with equipment vendors
- Project managed an \$850M plant expansion — led daily stand-up meetings, managed scheduling and milestone tracking, and coordinated across engineering disciplines

- Managed a team of 10 millwrights and electricians to commission and repair complex equipment at an ammonia plant near New Orleans, LA
- Performed root-cause failure analysis on complex bearing seal failure — gathered data, connected vendors with senior leadership, and implemented countermeasures within weeks
- Evaluated 50+ detailed technical documents to develop formal bid analyses for review by Principal Engineers; updated KBR's cooling tower technical standards to comply with new US government regulations

B&K Vibro, Metrix Instrument Co., Texas A&M — Texas —

Sales Engineer / Inside Technical Sales / IT Support / CAD-CAM Programmer | 2005 – 2012

- Developed and managed a Texas/Louisiana sales territory for B&K Vibro; delivered vibration analysis and product training to 100+ clients and 20+ employees
- Managed 200+ client accounts and processed thousands of orders at Metrix Instrument Company — maintained highest data entry accuracy (>1,000 records) among service team
- Achieved Vibration Analyst Level 2 certification through self-study; trained internal personnel on vibration data analysis and problem-solving
- Mastered and integrated 3D modeling software into legacy systems — incorporated CAD, CAM, MS Access, and Excel into one cohesive process; developed SOPs and trained majority Spanish-speaking staff
- Provided IT support at Texas A&M University Help Desk; promoted to Lead Specialist
